

Technical Info

On the USB stick there is a presentation with sources on the history of the Berlin Airlift (02_Presentation_English.pdf).

Two films are embedded in the presentation. To start these films, you need Flashplayer. If you do not have it installed on your computer, you can play the films (03_Film_Airlift_English.mp4 and 04_Film_CARE_only_in_German.mp4) separately from the presentation.

It is recommended that you download the presentation on the USB stick to your computer.

Along with the visual presentation, the text for the lecture is included under (05_Lecture_Text_English.pdf).
